FARMER MARKUS AND DAUGHTER IN ONE OF OUR PUMPKIN FIELDS.
EVEN THE SCHALK MÜHLE CAN BE SEEN IN THE BACKGROUND.

HIGH QUALITY FOOD FROM AUSTRIA

For generations, our family business has focused on strengthening regional, sustainable production and preserving traditional manufacturing processes. Personal relationships with regional organic farmers are cultivated with handshake quality and their and our own products are processed into high-quality food in the Styrian Schalk Mühle.

THE SCHALK MÜHLE EXISTS SINCE 1859 AND IS FAMILY-OWNED SINCE THE BEGINNING.

HOW IT ALL STARTED

It all started very small and manageable over 160 years ago in Kalsdorf near Ilz. There it stood, our mill and there it is still today. A lot has changed since then, but one thing has always remained the same: Schalk Mühle is a family business that places great value on tradition and innovation. A place where the current managing directors Franz Rainer and Rainer Franz sat at the tractor as children, helped their parents with the harvest and already looked to the future.

SO FAR SO GOOD

For many years, Schalk Mühle specialized in flour production and supplied many regional bakeries with a wide variety of flour types. It was like that for a long time. Over time the mill focused strongly on pumpkin production up to the takeover of the company by the brothers in 2015. From then on, the company had rapidly blossomed into a well-known producer of the finest organic products.

NO SIMPLICITY IN DIVERSITY

Erlesene Saaten aus Österreich finden bei uns in Kalsdorf ihre Bestimmung. Nämlich genau hier, in der Steiermark, werden sie nach der Ernte sorgfältig zu qualitativ hochwertigen BIO Produkten weiterverarbeitet.

BIO AS FAR AS POSSIBLE

Native oils, protein powders, bars, seeds, snacks, butters, pestos and much more are already an integral part of our diverse product range. Up to six new varieties are added every year. These can then be found right in our farm shop and 24/7 in our online web shop. www.schalk-muehle.at

ECHTE NACHHALTIGKEIT STATT GRÜNEM MASCHERL

We not only preach sustainability, we also live it. As simple as that. The mill has always used the water power of our beloved Feistritz. Thank you, dear Feistritz. In the past with direct drive, a Kaplan turbine at a depth of 7 meters ensures sufficient power in the generator.

Our production requires 2/3 of the electricity and the rest is fed into the home network. And should it still get tight, then 2000 m² have been helping us since March 2020 concentrated photovoltaic power on the roof our production hall.

The energy for roasting our pumpkin seeds does not come from the sources mentioned. It comes directly from our own forest and is used 1:1 to light our pumpkin seeds a bit under the buttocks so that they can develop their unforgettable roasted aroma in the Styrian pumpkin seed oil.

More on page 13.

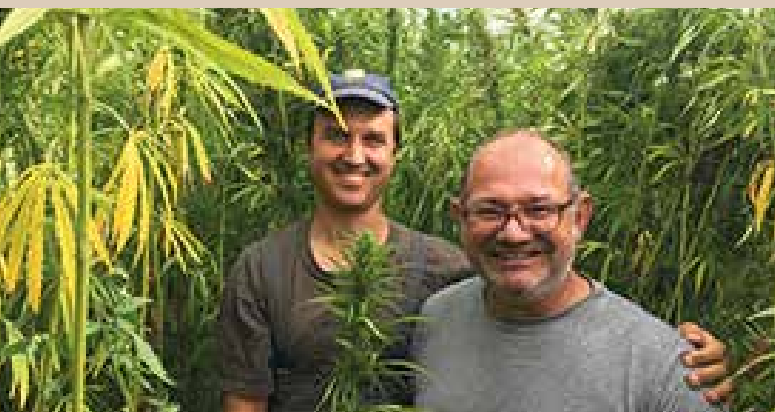

KNOW YOUR ORIGINS

In order to manufacture high-quality organic products, you need people who have organic flowing through their veins. People who might even sweat with their parents from an early age, when the longed-for rain failed to materialize or the masses of water threatened to wash over the fields. People who are more interested in the good of the environment than pure profit.

IN THE PAST AND NOW

We, the Schalk Mühle, not only produce organic food, we also grow it. Strictly speaking, on over 50 ha² of organic fields in and around Kalsdorf. The mill is right in the middle and forms the heart of our agriculture. We have always been farmers and so we developed a necessary understanding of the needs of nature and the people who are at the beginning of the value chain.

GOING COMMON WAYS

Of course, 50 m² of organic fields are no longer enough to meet the needs of our customers. Therefore, outside help is needed. Help from other farmers who passionately hang their thoughts in the field day in and day out - in winter and summer.

We now have over 200 Austrian partner farmers in our extensive network. Partners with whom we maintain a very personal and friendly relationship, based on appreciation and fairness towards people and their work. Without these people, Schalk Mühle would not be what it is today. Long-term relationships and fair wages are therefore essential cornerstones of our endeavors.

PRIVATE LABEL & BULK

Our product range is constantly expanding, whereby our values always remain the same. Above all, the partnership-based cooperation with our organic farmers is always in the foreground and by processing on site we can guarantee the best quality with 100% traceability. The entire product range is also available as a private label or in bulk.

SCHALK MÜHLE HAS OVER 60 PRODUCTS.
THE RANGE IS EXPANDED BY A FEW NEW ONES EVERY YEAR.

THE WOOD ROAST IS WHAT GIVES STYRIAN KERNEL OIL ITS SPECIAL AROMA. THE WOOD FOR THIS COMES FROM OUR OWN FORESTS AND IS ALWAYS REFORESTED.

THE SECRET OF BEST TASTE

Practice early, they say. And that's not that far-fetched, because if you want to press Styrian pumpkin seed oil here, you have to have a lot of time and instinct.

An apprenticeship as a traditional kernel oil press takes 1.5 years with us. Not because we like to take our time, but because this time is really needed. In the Schalk Mühle, roasting is still very traditional over a wood fire. And it is precisely this roasting in the so-called roasting pan that creates the special aroma of our original Styrian seed oil.

THAT 'S THE WAY.

In order to extract the black gold, as it is often called, you need a lot of subtlety. The dried Styrian pumpkin seeds are carefully ground in our traditional stone mill, gently roasted and pressed on site. After the oil has set for a few days, it is bottled.

The remaining pumpkin seed cake (colloquially „Ölkaas“) is bursting with protein and is therefore processed directly into pumpkin protein powder.

This is how we manage to process 100% of the cores.

FROM STYRIA.

By the way, not all kernel oil is the same.

In order to be a Styrian kernel oil with a geographically protected indication (PGI), certain requirements must be met.

First, the kernels have to be grown and harvested in Austria. Secondly, the kernels have to be roasted and then pressed in Styria. Then, and only then, the Styrian pumpkin seed oil can also be labeled as such and receives the typical banderole with the „PGI“ seal.

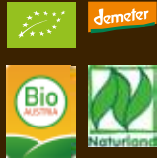

More information is available at www.schalk-muehle.at and on our guided tour.

STYRIAN GREEN

STYRIAN GREEN

ORGANIC & STYRIAN PUMPKIN SEED OIL PGI

TOASTED

For our Organic Styrian Pumpkin Seed Oil P.G.I. (Protected Geographical Indication) we are using the best organic pumpkin seeds from certified as locally cultivated Austrian agriculture. It is produced in a traditional, mild and sustainable way, without filtering or refining. Thanks to our long established production process, our oil offers an unique, dark green colour and a nutty, gently roasted aroma.

Availability in DEMETER, NATURLAND & ORGANIC Quality

Glass bottles:	100 ml, 250 ml, 500 ml
Cans:	250 ml, 500 ml
Bulk:	up to 1.000 l
Shelf life:	18 months

ORGANIC & TOASTED AUSTRIAN PUMPKIN SEED PROTEIN POWDER

TOASTED

For our fine Organic Toasted Pumpkin Seed Protein Powder we de-oil and grind toasted Austrian pumpkin seeds. It still contains about 10% - 15% pumpkin seed oil and around 60% vegetable protein and about 10% dietary fiber. Ideal as an ingredient for protein shakes, bread and buns or bread crumbs!

Protein content:	60%
Packaging:	350 g, 25 kg
Shelf life:	12 months

ORGANIC AUSTRIAN PUMPKIN SEEDS TOASTED & SALTED

TOASTED

Fine salt is added to our hand-picked organic pumpkin seeds which are roasted in a pan on our wood-burner. This procedure makes our toasted pumpkin seed nibbles an absolute delight. Refining enhances the natural nutty aroma and you can tell by their distinct flavour that our organic pumpkin seeds are of Austrian origin.

Availability in DEMETER & ORGANIC Quality

Packaging:	140 g, 300 g, 25 kg
Shelf life:	12 months

ORGANIC RAW AUSTRIAN PUMPKIN SEED OIL

RAW

Our virgin pumpkin seed oil is produced in a traditional, gentle and sustainable manner; it is not roasted, refined or filtered. 100% virgin organic pumpkin seed oil of Austrian origin. This traditional pumpkin seed oil is unique in its kind due to its mild but sublimely nutty aroma. Our virgin organic pumpkin seed oil is gently cold-pressed and is not filtered, refined or roasted. This in itself is extremely rare for pumpkin seed oil. What is more, its special features are its typical, characteristic pumpkin seed aroma and its bright green colour.

Glass bottles:	100 ml, 250 ml, 500 ml
Cans:	250 ml, 500 ml
Bulk:	up to 1.000 l
Shelf life:	12 months

RAW

ORGANIC & RAW AUSTRIAN PUMPKIN SEED PROTEIN POWDER

Pumpkin seeds, food of the gods. Our pumpkin seeds are de-oiled and gently ground without additional heating. The result is unique: our raw organic pumpkin seed protein powder contains an unbelievable 65% of plant-based proteins!

Proteins:	65%
Packaging:	350 g, 25 kg
Shelf life:	12 months

RAW

ORGANIC & RAW AUSTRIAN PUMPKIN SEEDS

Our organic pumpkin seeds come exclusively from organic farmers from Austria, whom we know personally!

Availability in DEMETER & ORGANIC Quality

Packaging:	180 g, 300 g, 25 kg
Shelf life:	12 months

COLDPRESSED OILS

COLD PRESSED OILS

For our BIO Austrian Native oils, we only use seeds that are cold-pressed without additional heating and filtered, but not refined. In this way, all valuable ingredients are retained and, in addition to a unique color, there is also a very mild and clear aroma. The natural edible oils are ideal for a healthy diet and are full of nutrients that the human body needs for its development. Ideal for salads, dressings, dips and for refining vegetables and yoghurts.

ORGANIC & RAW AUSTRIAN PUMKIN SEED OIL

Glass bottles: 100 ml, 250 ml, 500 ml
Cans: 10 l, 30 l
Bulk: up to 1.000 l

DIRECTIONS

Our company is located in the middle of the thermal region of Styria and can be easily reached via the A2 motorway.

Schalk Mühle GmbH & Co KG

Kalsdorf 18

8262 Ilz, Styria, Austria

CERTIFICATIONS

The following certifications can be used to measure that what is written on it is really inside. We set ourselves ever higher standards and attach great importance to that our customers can only experience the best of ORGANIC. The following certifications can then be used to measure that what is written on it really is inside.

Products of the Schalk Mühle are manufactured according to the IFS standard.

100% Austrian organic farming - without genetic engineering - to protect the environment and consumers.

We also offer DEMETER pumpkin seed products.

Schalk Mühle is a BIO AUSTRIA certified company with its own organic agriculture.

The entire supply chain - from the producer to the exporter - is certified according to the Bio Suisse guidelines.

We are also a Naturland FAIR certified organic farm.

All ingredients are disclosed by us without exception and agree to the criteria of the V-label.

Our products are Kosher certified and thus guaranteed 100% free of animal additives.

Schalk Mühle offers Halal certified products.
